We are glad to introduce our company and present to you the business opportunities that we believe we can offer in order to initiate a long-lasting and efficient collaboration.

Neiholding Group was established in 2002 as a one hundred per cent Romanian private investment, offering a gradually expanding range of products and services in many different areas. At the beginning, the company's main activity consisted of providing security services, transportation of valuable goods and installation of technical devices, but is currently also offering comprehensive fire protection services, detective services, business consulting, security equipment manufacturing and medical services.

The proficiency of our management team, as well as of our collaborators, partners and employees is the result of our twenty year experience in the fields mentioned in our portfolio, therefore promising top quality services. Our experience ranges from our consultancy department to providing all the services in our company's portfolio.

Nei Security Division, Nei View, Nei Facility Management, Nei Medica Asist, Nei Air, Nei Fire Services, Nei Private Investigation Agency, Nei Tehnic Si Calitate, Nei Fashion Style and Nei Management Consulting could become your reliable business partners .

# NEI DIVIZIA DE SECURITATE

Ever since its establishment, Nei Security Division vowed to excel at providing security services, transportation of valuable goods, consultancy, installation of technical systems, surveillance and intervention.

The social, economic and political climates are in a continuous transformation and so are the security needs of our clients. Our security experts are aware of this and are constantly developing solutions ment to meet you and your company's demands.

It is not enough to solve the problems when they emerge. We are here to anticipate your needs.

Our company's main objective is to constantly exceed expectations and to make decisions regarding security easier. Therefore, Nei Security Division vows to be a full service security solution.

Our company has become one of the main security providers in Romania, covering the entire country :Arad, Argeș, București, Ilfov, Brașov, Bistrița Năsăud, Bihor, Botoșani, Caraș-Severin, Constanța, Cluj, Dâmbovița, Dolj, Hunedoara, Mehedinți, Turnu Severin, Vrancea, Gorj, Iași, Prahova, Sibiu, Suceava, Timiș, Teleorman și Vâlcea.

Our company's strategy is oriented towards raising the quality standard when is comes to ensuring the safety of our clients.

Security Licence n. 2292/P issued by Ministry of Internal Affairs and Administrative Reform.

Technical License n. 3868/T issued by Ministry of Internal Affairs and Administrative Reform.

M.A.P.N. License NCAGE 002 NATO certification.

Dispatcher approval n. 48373 issued by Internal Affairs and Administrative Reform.

Professional Training License n. 40/2365/22.05.2007 issued by Ministry of Education.

Fire security certification, n. 3065, 3066, 3067 / 2009

Authorization for execution and maintenance of fire extinguishing systems and installations n. 7667/2018

## SURVEILLANCE | PATROL | QUICK INTERVENTION

### Patrol agents ensure active presence on the spot.

Mobile patrol is utilized to remind burglars and vandals that the property is being constantly monitored and checked. Besides patrolling, we regularly carry out routine procedures at the client's location.

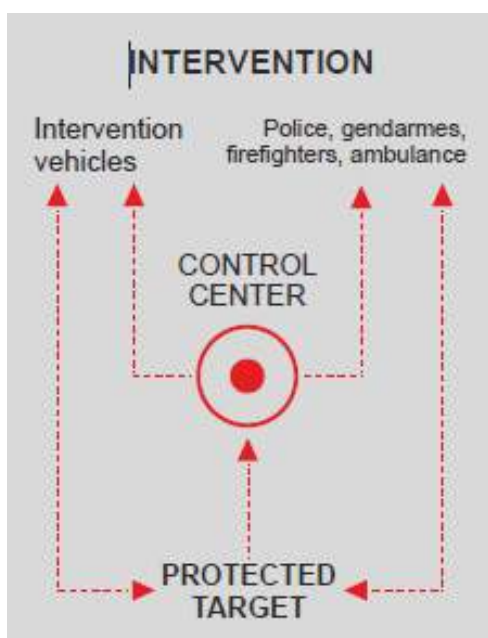

Our mobile agents are in permanent contact with the command center, using handheld transceivers and GPS.

### Our clients are protected by our quick response programme.

This programme dispatches the intervention team when alerted by the alarms. Armed with experience and knowledge, they firstly determine the seriousness of the alarm and then, being excellently well trained and aware the legal regulations currently in effect, they take the necessary action in order to solve the situation.

An agent will check on the client's premises at random hours, during the day and/or the night, to make sure no trespassing or burglary attempt has taken place.

The patrol vehicles are equipped with two-way radio transceivers which are permanently connected to the Security Center, so that in case of an emergency the computer can choose the unit closest to the property.

# NEI DIVIZIA DE SECURITATE

## VIDEO SURVEILLANCE

This type of surveillance goes hand in hand with our intervention tactics in order to provide the best security for your property and helps detect actions which could inflict property damage and which have to be prevented.

In case our agents notice any unusual activity regarding the protected property, the intervention team will be alerted right away, as well as the client and, if necessary, law enforcement.

### The benefits of video surveillance include:

- ➔ Reduced cost of security services
- ➔ Higher efficiency of security measures by reducing crime rate, discouraging violation attempts and easier identification of suspects
- ➔ Quicker detection of problems, which enables you to proceed most efficiently in case of an emergency situation.
- ➔ A better solution for supervising your own employees, your guest influx and the internal work process
- ➔ Simplicity and reliability when it comes to operations and maintenance

# NEI DIVIZIA DE SECURITATE

## TRANSPORT AND ESCORT

We provide high quality escort services and transportation of valuables using specialized personnel. We focus on preserving the integrity of high value goods throughout the entire transportation process.

We adjust our services to meet our clients' needs. We also make sure that our clients' directions are carefully followed. At the same time, we offer our clients all the support and information they may need during the shipping, storing and handling of their goods.

We offer cost effective solutions for ensuring the protection and security of your products and valuables.

## HUMAN GUARDS

- ➔ Prevention of trespassing, vandalism, abuse and fire. Prevention and detection of any unauthorized activity on a private property.
- ➔ Managing crowds of people, only for solving specific requests regarding the protection of a property.
- ➔ Guarding a person against physical attacks by using a personal bodyguard.
- ➔ Preventing burglary, theft, robbery, shoplifting or other similar inconveniences.

## GPS SURVEILLANCE

- ➔ Location tracking of a vehicle at any moment
- ➔ Route analysis
- ➔ Route report
- ➔ Fuel report
- ➔ Vehicle maintenance report

## EVENTS

Every event is a unique project. We efficiently combine the knowledge and the experience in the Romanian business environment with our project management abilities in order to offer you more than just an event. An experience, a well implemented project, a memorable event and a quality follow-up are all sides of the product we build for each and every client employing respect and attitude.

## Risk Analysis

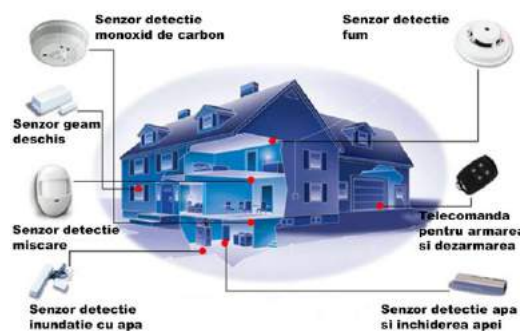

Risk analysis for physical security is, according to the law in effect, mandatory paperwork for all companies, regardless of the nature of the social capital, which possess goods and valuables of any title and are required to ensure their protection.

## Security System Projects

Designing , installation and maintenance services for alarm systems preventing burglary

Designing a protection system requires establishing a complex configuration of equipment: alarm plant, detection equipment and optoacoustic signaling, surveillance cameras, digital recorders, access control systems and a power supply for all of the above.

## Insurances

- Travel Insurance
- Home Insurance
- RCA Insurance
- CASCO Insurance

**021 9403**
